

AKVIS AirBrush 6.5: Impressive Masterpieces Just One Click Away! Now Even Faster

June 25, 2019 – AKVIS announces the update of AKVIS AirBrush, photo-to-painting software. Version 6.5 increases the processing speed, provides support for more RAW files, some bug fixes and better program's stability.

AKVIS AirBrush turns photos into airbrushed works of art. The software offers 3 color modes: *Original Colors*, *Monochrome*, and *Multicolor*. You can choose from dozens of ready-to-use presets, easily create your own presets, or import presets from other users. You can also decorate the finished work with a frame, canvas or text.

Version 6.5 provides the accelerated image processing algorithm. Creating eye-catching paintings is now faster than ever!

Also, the update implements support for more RAW files, some bug fixes and stability improvements.

[Download AKVIS AirBrush 6.5!](#) For a free trial, AKVIS offers 10 days of fully functional use.

The software runs on Windows 7, 8, 8.1, 10 - 32-bit, 64-bit; Mac OS X 10.11 and macOS 10.6.5-10.14 - 64-bit. The product is available as a standalone application and as a plugin filter for [AliveColors](#), Adobe Photoshop, Corel Photo-Paint, and [other image editors](#).

AKVIS AirBrush Home sells for \$49.00. Deluxe and Business versions are also available for sophisticated users and commercial clients. Consult the official website [akvis.com](#) for more details about license types and prices of the product.

The update is free for users who bought AirBrush in the last 12 months. Users whose licenses are older and are not valid for the new version, can get AirBrush 6.5 for only \$14.95.

AKVIS ([akvis.com](#)) specializes in the development of video & image processing software. Since the company's launch in 2004, it has released a number of successful products: standalone applications and Photoshop plugins for Windows and Mac.
