Keeping diaries and journals goes back to our childhood. Nowadays the hobby of scrapbooking is a passion for millions and a big DIY trend all over the world. It is based on cutting up printed photographs and creatively placing and gluing them on a single page, making a photo collage. Scrapbook is a set of memories consisting of photographs, newspaper articles, recipes, tickets, city maps, letters, and so on. These things remind us of our most precious moments and milestones and a scrapbook is that perfect way to keep them forever.

Use these amazing picture frames to preserve the stories behind your photos! Some templates are decorated with paper craft and dried flowers, others are designed in vintage style and embellished with postage stamps and geographic maps. Print these picture frames and use them as page layouts for a personal scrapbook. Also, you can create a digital scrapbook that can be easily shared through the web. Travel back in time and make new memories for tomorrow!
