

AKVIS Enhancer 17.5: Brighten up Photos and Reveal Details!

March 16, 2022 – AKVIS announces the update of AKVIS Enhancer, an image editing application and Photoshop compatible plugin for Windows and Mac. Version 17.5 provides the redesigned user interface as well as compatibility, stability, and other improvements.

AKVIS Enhancer is powerful image editing software that is useful for revealing details, fixing dark photos, adjusting tones, contrast, and brightness. The program offers an individual approach to every part of the photo and provides a comprehensive correction of each point. AKVIS Enhancer includes three modes: [Improve Detail](#), [Prepress Processing](#), and [Tone Correction](#). It is a handy and fast tool to drastically improve photographs.

In expert reviews, the program is featured as a “fully automatic tone mapping tool” and “a highly practical program for lightweight, but essential picture enhancements”, that “can be employed to make various quick adjustments to images”, and “if you have an image that is over or under exposed, Enhancer will recover lost image details and make image colors more vibrant”.

Version 17.5 provides the redesigned interface. The update also offers file saving options for Batch Processing, support for new RAW formats, compatibility with the latest versions of Adobe and Corel photo editors, and verified support for Windows 11 and macOS Monterey 12.

The software is available for download at akvis.com. AKVIS offers the 10-day fully functional trial period.

AKVIS Enhancer runs on Windows 7, 8, 8.1, 10, 11 - 32/64-bit; Mac OS X 10.10-10.11, macOS 10.12-12.0 - 64-bit. It is also compatible with Linux via Wine. The software can be used as a standalone application and as a plugin with compatible graphics editors: [AliveColors](#) by AKVIS, Adobe Photoshop, Corel PaintShop Pro, Affinity Photo, etc.

The product comes in Home, Home Deluxe, and Business versions (lifetime licenses), with differing levels of functionality. The Home license sells for \$69.00. The update is free for users who bought the software in the last 12 months. Users, whose licenses are older and are not valid for the new version, can get AKVIS Enhancer 17.5 for only \$14.95.
