

## AKVIS OilPaint 8.0: Now with Artistic Edge Effects and 3D Frames!

December 4, 2018 – AKVIS announces the release of OilPaint 8.0, a fun and versatile photo-to-painting software. Version 8.0 adds the new Edge tab that applies artistic edge effects to the painting. Also, the recent version offers the 3D frames, the integrated Notification Panel, new built-in presets, and some bug fixes.

[AKVIS OilPaint](#) turns digital photos into incredible oil paintings. The unique algorithm authentically reproduces the technique of the real brush and gives users full creative control over the effect. With AKVIS OilPaint, you don't need to be a professional artist to produce a work of art. Just open an image in OilPaint and select a preset or adjust the effect settings manually. The software automatically creates a masterpiece out of any photo!

**Version 8.0** offers the new [Edge](#) tab ([Home Deluxe/Business](#)) that allows users to add extra artistic strokes to the edges of the converted oil painting.

The new *3D effect* check-box is now available in the *Frame* tab. The feature makes the decorative classic frame appear even more prominently and realistic.

Also, the recent version adds the integrated *Notification Panel* and new ready-to-use presets.

[Download AKVIS OilPaint 8.0](#) and try all features of the software during the 10-day trial period.

The software runs on Windows 7, 8, 8.1, 10 - 32-bit, 64-bit; Mac OS X 10.11 and macOS 10.12-10.14 - 64-bit. The product is available as a standalone application and as a plugin filter for [AliveColors](#), Adobe Photoshop, Corel Photo-Paint, and [other image editors](#).

**AKVIS OilPaint**, Home license, sells for \$49. One license key allows activating and using the software on two computers. [Consult the official website](#) for more details about license types and prices of the software.

The update is free for users who bought OilPaint in the last 12 months. Users, whose license is older and is not valid for the new version, can get OilPaint 8.0 for only \$14.95.

AKVIS ([akvis.com](#)) specializes in the development of video & image processing software. Since the company's launch in 2004, it has released a number of successful products: standalone applications and Photoshop plugins for Windows and Mac.
