

## New Artistic Effect for Video Editors: AKVIS Stencil Video Plugin 1.0

*April 4, 2023 – AKVIS is proud to introduce a new plugin for video editing programs. AKVIS Stencil Video 1.0 converts videos into pieces of art, simulating the stencil drawing technique. The new software is cross-platform and OFX and AE plugin for video editors.*

AKVIS releases one more video effect and expands its range of creative plugins for video editing programs.

**AKVIS Stencil Video 1.0** allows users to transform a movie into a cartoon, generating a sequence of striking drawings using the stencil technique, one of the impressive forms of printmaking. The software creates both monochrome and multicolor cartoons.

**AKVIS Stencil Video** is an OpenFX and Adobe compatible plugin. It includes a set of ready-to-use presets by AKVIS integrated into a video editor. The filter is fully configurable and allows users to adjust the effect parameters. Using the plugin, it's easy to make eye-catching animated videos.

The new product is available for download at [akvis.com](https://akvis.com). AKVIS offers 30 days of the trial period without registration.

The plugin works with popular video editors like Adobe After Effects, Adobe Premiere Pro, Adobe Premiere Elements, EDIUS Pro 9, DaVinci Resolve, Vegas Pro, as well as with the Natron open-source program.

AKVIS Stencil Video is cross-platform software. It runs on Windows 7-11, macOS 10.12-13.0, and Linux (64-bit OS). The plugin offers a multi-language user interface.

The product is available in Home and Pro lifetime licenses, with differing levels of functionality. The Home license (monochrome effect, for personal use) sells for \$ 49, the Pro license (monochrome and color effect, for commercial use) is available for \$ 69. The new product comes in the [AKVIS Video Bundle](#) that includes all AKVIS video editing effects with a 30% discount.

For more details about the new software, visit [akvis.com](https://akvis.com).

**AKVIS** ([akvis.com](https://akvis.com)) specializes in the development of photo & video processing software. Since the company's launch in 2004, it has released a wide selection of successful multi-platform products. The company always keeps up with the times, updates its products with cutting-edge technologies, and launches innovative, inspiring products.
