

AKVIS NEON 2.5: MAKE YOUR CHRISTMAS PHOTOS SHINE BRIGHTER!

December 20, 2016 — AKVIS announces the release of AKVIS Neon 2.5 for Windows and Mac OS X. The new version provides full compatibility with Photoshop CC 2017, adds support for more RAW files, and fixes minor bugs.

AKVIS Neon creates sparkling drawings that look like they were drawn with light or luminescent ink. The software is highly entertaining and productive at the same time; it does not require any special skills to be used effectively. The program offers numerous presets and decoration effects that let you generate wonderful glowing images within seconds!

Use these magical glow effects to create high quality prints and posters. You can make beautiful luminous backgrounds, abstract paintings, spectacular illustrations for a photo book, etc. The program will also help you to prepare brilliant Christmas and New Year cards which will surely impress anyone you give them to! All you need is a creative approach and **AKVIS Neon!**

In Version 2.5:

- **Compatibility with Photoshop CC 2017**

The plugin version is now fully compatible with Photoshop CC 2017. It automatically appears in the *Filter* menu after installing or upgrading AKVIS Neon.

- **Other Improvements**

- Added support for more RAW files for the standalone version.
- Fixed minor bugs.

[Download AKVIS Neon v.2.5!](#) You can evaluate all features of the software during the 10-day trial period.

It is a free upgrade for recent buyers as well for those who bought 1 Year of Updates during the last 12 months! Users, whose license is not valid for the new version, can get Neon 2.5 for only \$14.95.

The software runs on Windows XP, Vista, 7, 8, 8.1, 10; and on Mac OS X 10.7-10.12; both 32- and 64-bit operating systems. The product is available as a standalone application and as a plugin filter for Adobe Photoshop, Corel PaintShop Pro, and other image editors.

AKVIS Neon, Home license, sells for \$39. Consult the official website akvis.com for more details about license types, versions, and prices of the software.

AKVIS (akvis.com) specializes in development of video and image processing software. Since the company's launch in 2004, it has released a number of successful products: standalone applications and Photoshop plugins for Windows and Mac.
